Career Objective:

I am a versatile software developer passionate about creating exceptional digital experiences. With expertise in UI/UX design, front-end development, and full-stack technologies, I bring a holistic approach to every project. My goal is to craft innovative solutions that not only meet technical requirements but also delight users with their intuitiveness and aesthetic appeal.

Work Experience:

Apr 2024 – Present:

Apprentice Software Developer, Zone01 Kisumu

- Collaborate with developers on software projects
- Participate in code reviews and agile development processes

Oct 2021 – Feb 2024:

Freelance Software Developer

- Developed user interfaces with React and Angular
- Developed and deployed websites for clients
- Developed UI/UX prototypes for clients using Figma
- Developed front-end features and websites using React, Angular, and Django

Aug 2023 – Apr 2024:

Front-End Developer, Medinius Technology

- Worked with React, Express, and Node.js to develop user-facing features
- Collaborated with cross-functional teams to design and implement intuitive UI/UX using Figma

- Involved in the complete software development lifecycle, including project planning, development, and deployment

May 2023 – Aug 2023:

Front-End Developer Intern, Smart Applications International

- Created UI/UX designs and prototypes using Figma
- Built custom mobile applications with Flutter
- Used agile and SDLC to develop software applications in teams

June 2021 – June 2022:

Freelance Writer

- Wrote and edited content on topics related to Python, cybersecurity, and software engineering
-

Educational Background:

Sep 2019 – May 2023:
